Chiropractic Treatment for Whiplash: It Works

Research done in [1996](#) and [1999](#) showed chiropractic to be more than 90% effective in relieving pain from whiplash.

[A 2003 study](#) established chiropractic manipulation as being more effective than acupuncture or traditional medical treatment in the treatment of chronic spine pain.

In addition to chiropractic manipulation, Dr. Arnold's certification in [The Graston Technique](#) and use of [VibraCussor Percussion Therapy](#) may help further accelerate your recovery.
