## Chocolate 26g

Like 32

### Mmmmm... Chocolate and protein.

Produced from the seed of the Theobroma Cacao tree, the intense, comforting, flavorful characteristics of chocolate milk have been romancing souls and satisfying taste buds for years. Staunch believers in the health benefits of chocolate milk, nobody loves this classic flavor more than we do. Except maybe you. And probably that guy over there.

The cocoa in chocolate contains several bioactive compounds like theobromine, caffeine, tyramine and the very difficult to pronounce phenylethylamine, which promote alertness, lessen pain and promote well-being in athletes. Chocolate milk has been shown to be an effective recovery aid.

- **Chocolate:** Rich in antioxidants, cocoa derived from dark chocolate promotes alertness, lessens pain and promotes well-being
- **Protein:** 26g of naturally concentrated whey and casein proteins
- **Calcium:** 700mg of highly absorbable calcium
